

Website Recommendations:

1. Valley West Veterinary Hospital (<https://www.valleywestvets.com>)
You can find valuable information featured on our website regarding information on your new kitten, as well as other services we offer.
2. American Association of Feline Practitioners aka AAFP (<https://catfriendly.com>)
This website can provide you with great information regarding your new kitten, ranging in transportation to and from the veterinary clinic, vaccines, and various other topics.
3. Veterinary Partner (www.veterinarypartner.com)
Here you can find various information regarding a variety of topics for your new kitten. The staff at Valley West have evaluated this information and ensure that you can trust it for at home research or tips/tricks for your new family addition.
4. Companion Animal Parasite Council aka CAPC (<https://capcvet.org>)
At this website you can find information regarding parasites that your kitten can encounter, prevalence of various parasites, and expert articles.
5. Veterinary Oral Health Council aka VOHC (www.vohc.org)
This website provides accepted products that have proven to be effective in reducing plaque or tartar in your kitten (diets, treats, toothpaste, water additives, etc.). This website also provides educational literature on periodontal disease in pets.
