

Website Recommendations:

1. Valley West Veterinary Hospital (<https://www.valleywestvets.com>)
You can find valuable information featured on our website regarding information on your new puppy, as well as other services we offer.
2. Veterinary Partner (www.veterinarypartner.com)
Here you can find various information regarding a variety of topics for your new puppy. The staff at Valley West have evaluated this information and ensure that you can trust it for at home research or tips/tricks for your new family addition.
3. Companion Animal Parasite Council aka CAPC (<https://capcvet.org>)
At this website you can find information regarding parasites that your puppy can encounter, prevalence of various parasites, and expert articles.
4. Veterinary Oral Health Council aka VOHC (www.vohc.org)
This website provides accepted products that have proven to be effective in reducing plaque or tartar in your puppy (diets, treats, toothpaste, water additives, etc.). This website also provides educational literature on periodontal disease in pets.
